Career Objective

MCA student at the University of Allahabad with strong foundation in frontend development and modern web technologies. Proficient in HTML, CSS, JavaScript, and React.js, with hands-on experience building responsive web applications. Seeking an entry-level Frontend Developer role to create user-friendly and scalable interfaces.

Technical Skills

- **Frontend:** React.js, HTML, CSS, JavaScript
- **Backend:** Node.js, Express.js
- **Database:** MongoDB
- **Programming Languages:** Python, C
- **Core Concepts:** Data Structures (Basic), Programming Logic
- **Tools:** Git (Basic), VS Code, MongoDB Atlas

Projects

SkillBuddy – Placement Readiness Predictor (2025 – Present)

- Developing a MERN-based web application for student placement readiness analysis.
- Implemented student profile management module and resume-based scoring logic.
- Designed reusable React.js components to build an interactive and dynamic user interface.
- Integrated RESTful APIs and MongoDB for data management.
- Exploring AI/ML-based enhancements for predictive scoring.

NoteDoodle – Note Storage System (2025 – Present)

- Designing and developing a web-based note management system.
- Implemented CRUD operations (Create, Read, Update, Delete).
- Integrated backend APIs with MongoDB for persistent data storage.
- Designed responsive frontend interface using React.js and CSS.
- Implemented user authentication and basic input validation for secure data handling.
